Learning ReactJs

Sololeran, Online

Nov 2021 - Present

Responsice Web Design

Sololearn, Online

Oct 2021 - Oct 2021

HTML :-ELEMENT,PARENT ELEMENTS,CHILD ELEMENTS,INLINE ELEMENTS,BLOCK ELEMENTS,DIV,SECTION,P,SPAN,FONT, BOOTSTRAP:-worked on bootstrap 4 worked with the Class-Container, Container-fluid, Row, Col, many more... also work with the card, modal, carousel, target event, toggle. Breakpoints- sm, md, lg, xl, 12- GRID-SYSTEM CSS;- Used many things beyond expectation and the most interesting thing was media query applied the effects on different screen size [removed]-As javascript is the thing that can change everything on a web page get the data from the HTML and set it into the web page on the desired place and not only this I worked a lot from function () to var sum=()=>{} and `tem${hi}`

PHP
